## Intro

Having gone through a lovely long summer with late nights outside enjoying the light days and warm rays of the sun, we do now long, just a wee bit, for the cozy days indoors.

We love the way autumn sneaks in on us and how nature is wrapping us in the most wonderful warm and comforting colours. How it's now time to light the indoor fires and snuggle up with our family on the couch with warm drinks, that book we didn't get around to read and quiet evenings. Every season has its qualities, but somehow Autumn carries that extra bit of aesthetic beauty - in every way.

With this catalogue we hope to bring you exactly that - aesthetic beauty. This autumn/winter issue is by far our biggest catalogue yet and it's filled with fine prints, gorgeous new headwear models and stories we hope you'll see and feel when turning the pages.

Our biggest news this season is our new children's line, Petite Peanut Headwear. We have really struggled to keep the secret from you, as this little heart felt brand really is special in every way. With this line of small headwear, we hope to bring a bit of glamour, fun and not least comfort to the many children with hair loss. And watch out for the petite Peanut, he's on the loose on the kid's pages and we just never quite know, where he turns up next.

There might be many reasons for you to browse through our catalogue. Perhaps you are looking for soft and comfortable headwear to cover your sensitive and bald scalp caused by treatment for a critical illness. You may want to cover your hair because you experience bald patches. Perhaps you are simply browsing to find a fashionable printed turban to complete your carefully selected outfit. Or, maybe you are looking though this selection of Danish designed head coverings because headwear is part of your daily dressing routine and that you, due to Alopecia, are bald and beautiful.

We're proud to have you here and welcome you to a colourful, exciting and beautiful autumn/winter 2019 catalogue.

## CHRISTINE HEADWEAR BAMBOO COLLECTION

The bamboo-viscose products from Christine Headwear are made in the unique and functional Caretech® Bamboo quality.

Bamboo-viscose fabric has many fantastic features and the soft and comfortable quality is actually used to form the largest part of the Christine Headwear product range.

The Caretech® Bamboo from Christine Headwear is supremely soft, silky and luxurious to the touch. It is breathable and thermo-regulating so you remain comfortable and dry during both summer and winter temperatures. The fabric is more moisture absorbent than cotton and quickly removes the moisture from the skin and releases it.

Further the eco-friendly Caretech® Bamboo products are extremely gentle to wear and highly suitable to use against sensitive skin.

## CHRISTINE HEADWEAR 37.5® Technology

The revolutionary 37.5® Technology used in this unique Christine Headwear collection has resulted in a headwear line lighter and more advanced than ever seen.

The 37.5® Technology works with the body's natural mechanisms in order to maintain a balanced core temperature at 37.5 degrees. It even dries up to five times faster than similar products without the technology and quickly releases moisture vapour, leaving you in an optimal comfort zone at all times.

The active particles used in 37.5® Technology are derived from natural sources such as coconut shells and volcanic minerals. The combination of special sources and product features makes this a rather unique and intelligent headwear line.

For further information on 37.5® Technology go to the Technologies and Product Features page on [christineheadwear.com](http://christineheadwear.com)

# CHRISTINE HEADWEAR UNDERWEAR COLLECTION

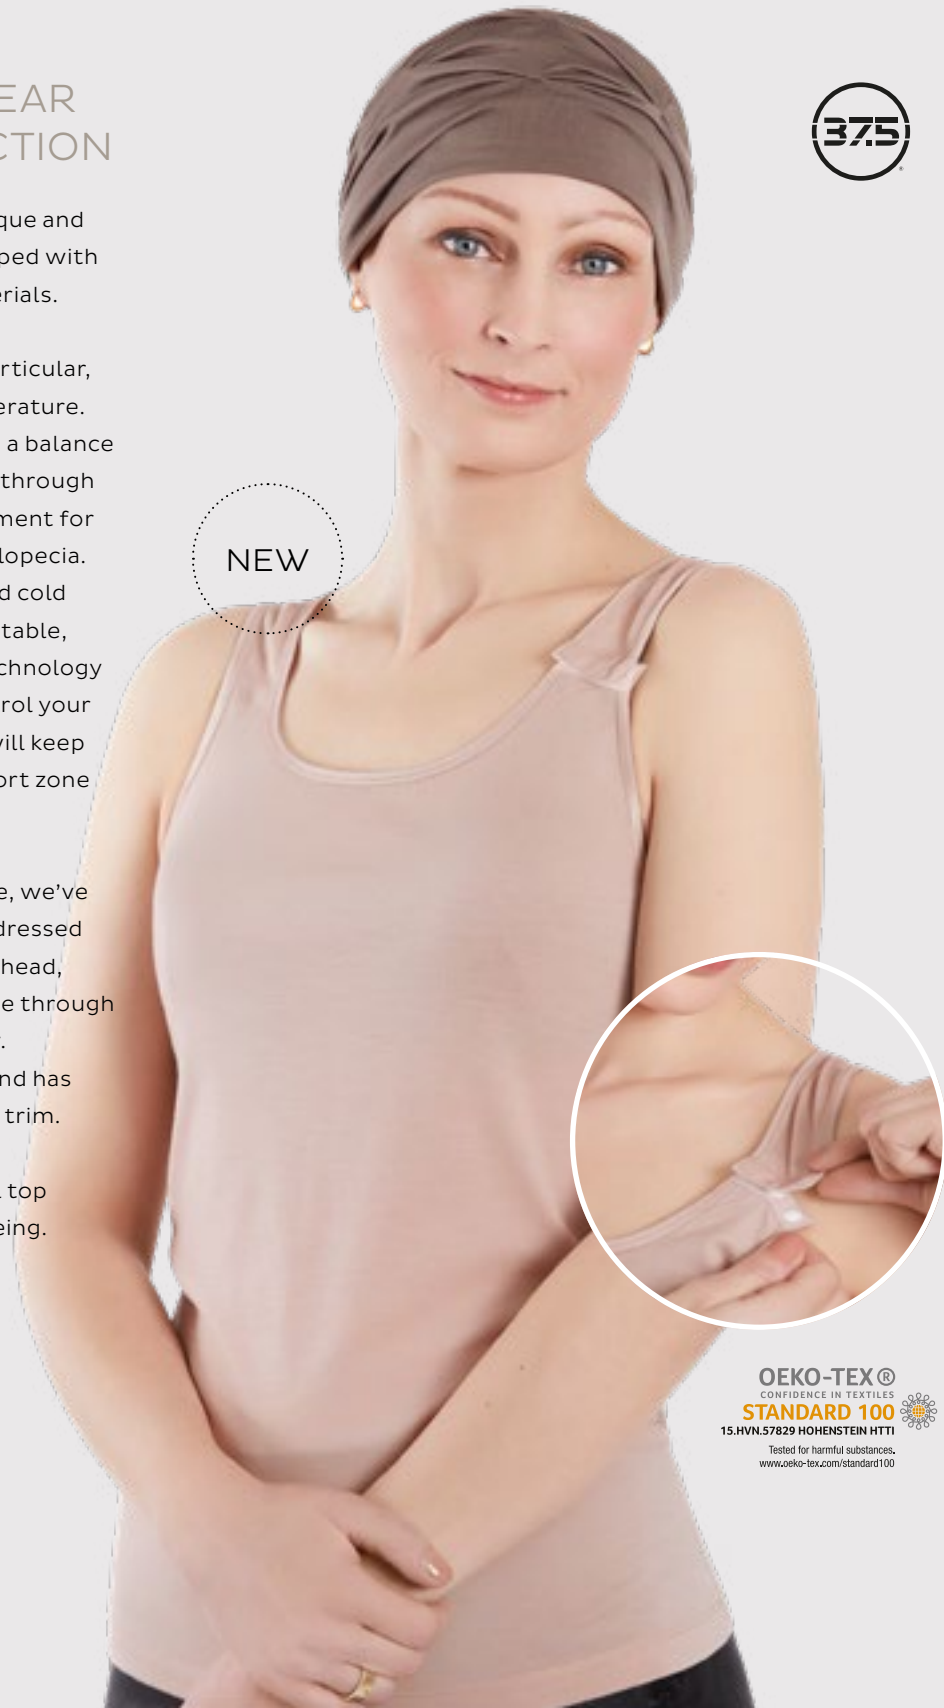

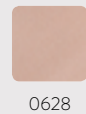

The Christine underwear top is a unique and comfortable underwear piece developed with both intelligent features and materials.

Comfort in clothing, underwear in particular, is often dictated by your body temperature. It can, however, be difficult to maintain a balance at 37.5-degrees when our body goes through changes, either due to surgery, treatment for critical illnesses or when suffering Alopecia. It can be hard to control the hot and cold flushes that makes us so uncomfortable, but this top will help you! The 37.5® Technology used in the fabric material helps control your core temperature, regulates it and will keep you in the optimal 37.5-degree comfort zone at all times.

For further comfort and convenience, we've constructed the top so you can get dressed without having to pull it over your head, which can be difficult when having gone through a breast or under arm surgery. The neck line is beautifully placed and has an elegant and feminine silky satin trim.

A truly comfortable and practical top made particularly for your wellbeing.

Hi there, I'm Petite Peanut

I'm a wee bird, I'm green cause it's my favourite colour and I just love to play hide and seek. My favourite thing is to fly around under the sun wearing my super smart sunglasses. I do not have that many feathers on my head, so I like to hide them under a turban cause it's warm and comfortable and it protects my wee head from the sun and, I think it makes me look really cool too. If you put your new headwear on, we can look cool together, yep let's do that...

# PETITE PEANUT
